## CHEF'S NOTES

Try toasting the sandwich thins (or bread) for more contrast in texture!

These sandwiches are best enjoyed the day they are assembled. For lunch, simply wrap in plastic or store in an airtight container until ready to eat.

Extra hummus can be stored in an airtight container in the refrigerator for up to 5 days.

## DIRECTIONS

1. Gather all necessary equipment and ingredients.
2. *Make the hummus:* Drain and rinse the chickpeas. In a microwave safe bowl, microwave the chickpeas until hot (about 1-2 minutes on high). This will result in smoother hummus.
3. In a food processor or blender, combine the garlic, chickpeas, lemon juice, water, oil and spices. Blend the mixture until smooth. If the hummus is too thick, add warm water, one tablespoon at a time, until the hummus is smooth and creamy.
5. *Assemble the sandwiches:* Spread about 2 Tbsp of hummus over each sandwich thin. Then, layer the remaining toppings (spinach, cucumber, apple, tomato, and cheddar) evenly amongst the eight (bottom) slices. Finish the sandwiches by topping with the remaining eight (top) slices.
